Taipei, head office

■ **Head office:**
DKSH Taiwan Ltd.
9th Floor, No.22, Lane 407,
Section 2, Tiding Boulevard,
Neihu District 11493 Taipei

● **Laboratory:**
9th Floor, No.22, Lane 407,
Section 2, Tiding Boulevard,
Neihu District 11493 Taipei

Market Coverage and Service Offerings

Key Services

- Market analysis (client monthly report, Newsletter, market development)
- Advance users training course
- Application seminar
- Repair service
- Spare parts/consumable/ general lab equipment

Main Market Segment

- Academia
- Biotechnology
- Pharmaceutical
- Chemical
- Food & Beverage
- Semiconductor/Solar
- Recycling/Environment

Some of Our Key Customers

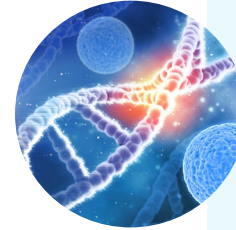

Biopharma

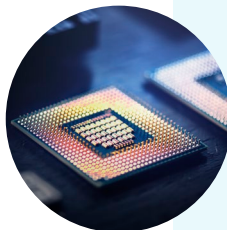

- Taiwanese pharma is moving from simple tablets to complex delivery systems like liposomes and nanocarriers. These products require extreme precision in particle size and uniformity to ensure efficacy.
- The industry is rapidly adopting the CDMO model to join global supply chains. Market leaders like Bora are actively acquiring overseas plants to scale their manufacturing footprint.

Life Science

- 4 key applications announced by Taiwanese government: nucleic acid drugs, cell therapy, digital healthcare, and CDMO service
- Driven by external pressures such as the pandemic, ESG (Environmental, Social, and Governance) considerations, regulatory norms, and the CDMO trend, the biotech and healthcare industry is experiencing a period of strong growth.

Semiconductor

- The CMP (Chemical Mechanical Polishing) process is a crucial factor in breaking through nanoscale chip manufacturing processes.
- According to the analysis by the Institute for Information Industry, the semiconductor industry is estimated to achieve an output value of 6.1785 trillion New Taiwan Dollars in 2025, marking a growth of 16.2%.

Product Portfolio

BL Scientific Solutions – Taiwan

Material and Chemical Analysis

- Particle characterization
- Stability analyzer

- DVS & IGC

- Interface analysis
- Solid zeta potential analysis

Life Science

- Super-resolution microscopy

- Cell Culture Media
- Flow Cytometer
- Microplate Readers

- Next generation protein sequencing

General Lab

- Thermostats
- Chiller
- Water bath

- Density Meters
- Refractometers
- Polarimeters

- Freeze dryer

- Laboratory Refrigerators
- Laboratory Freezer

- Analytical Balance
- Pipettes & Tips
- Bottle top dispenser

- Water activity analyser
